# Andre Melendez

(915) 422-7858 | andre.melendez5835@gmail.com | linkedin.com/in/andre-melendez | github.com/Andre-210

## Education

**Bachelor of Engineering in Computer Science** Major GPA: 3.71/4.00 Expected Graduating Date: Fall 2025
*The University of Texas at El Paso (UTEP)* Overall GPA: 3.64/4.00
**Associates of Multidisciplinary Studies** GPA: 4.00/4.00 Graduated: May 13, 2022
*El Paso Community College (EPCC)*

**Current Relevant Coursework:** Adv. Object Oriented Programming, Advanced Data Structures, Software Development Studio, Discrete Structures, Automata, Matric Algebra, Careers in Tech

## Skills

- Proficient Java and Python
- Learning CSS and HTML
- Bilingual: Spanish and English (written/oral)
- Streamlit Python Development
- BigQuery API
- ML: Vertex Vision AI API Model: Imagen 2
- Team Leadership and Collaboration
- Time Management and Organization

## CS Activities

**Google Tech Exchange Program | Mountain View, CA** 1/02/2024 – 05/17/2024
**Courses:** Advanced Data Structures, Software Development Studio, Careers in Tech

- Took a Google Technical assessment and was selected among the top 12% (180/1500) applicants. A semester long virtual academic program facilitated by Google engineers focused on developing technical skills in: GitHub, Google Cloud Shell, Web-App Development (Python), Data Structures, Technical Interviews

**Coding Interview Club** Fall 2022 – Present

- Collaborate with peers in practicing problem-solving techniques, algorithmic thinking, and coding challenges to excel in technical interviews.

## CS Projects

**Gen AI Interior Design Web Application (Google Tech Exchange Team Project)** – Developer

- Designed and implemented Explore Page for Python-based app using Streamlit on Google Cloud. Implemented dynamic UI featuring image generation of interior designs utilizing the Vertex Vision AI API. Queried through databases utilizing BigQuery to construct prompts for the Vertex Vision AI API. Implemented the navigation bar utilizing CSS and HTML and injected it into the python code. Utilized GitHub for version control, contributed and adapted to evolving project requirements.
- Technologies: Python, CSS, HTML, Streamlit, Figma, Google Cloud, GitHub, Vertex Vision AI API, BigQuery API

GitHub: github.com/Andre-210/ARCD

**Chess Game (Class Team Project)** – Developer

- Collaborated on a Java chess game project, applying object-oriented principles. Implemented modular code with interfaces for chess pieces and board. Key contributions include piece creation, movement, and position validation. Utilized Git Hub for efficient group collaboration.
- Technologies: Java, GitHub

GitHub: github.com/Lg0ma/AOOP16

**Portfolio** – Developer

- Technologies: GitHub, CSS, HTML GitHub: github.com/Andre-210/andremele.github.io

## Community Contributions

**Keystone Heritage Park Restoration Project (Insights & United States Environmental Protection Agency)** – Secretary

- Key contributions in project design, proposal, team building, and recording information. Received a budget of $10,000 for project implementation. Published and presented project documents for professionals in the field of restoration at UTEP alongside my other peers with leadership roles.

## Other Activities and Honors

College of Engineering Dean's List – Fall 2024 and Spring 2024, College Board National Hispanic Recognition Scholar 2021
